

# TRANSCENDER SE

---

This is a re-release of the original transcender with a few enhancements. It now has a choice of square or sawtooth waveforms for more voices, plus a trance style gate, and still has the multibank detuned oscillators mixed in stereo through twin filters for that huge wide power station sized sound.

---

## MIDI CC#

03 Detune	20 Delay time
09 Waveform	21 Delay feedback
11 Dual octave	22 Delay level
12 Mono/polyphonic
